

CAREFORCE

The CareForce Hub is a purpose built website created to promote careers in disability, aged and home care to job seekers in the Illawarra and South Coast Region. It features job vacancies, tools and tips, resume templates, employer information and highlights the variety of roles available in the sector.

FREE

The CareForce Hub website will offer free advertising of positions vacant for care career employers who make a Jobs Pledge.

Supporting Job Seekers

The CareForce Hub will be a central point for job seekers looking for a job in the Care sector. A job seeker can search for jobs but also learn about different job types, pre-requisites, role types and opportunities available to them.

The Hub will connect job seekers to employers who have current vacancies. It is also a good resource for employment service providers to share with client and career advisers wanting to showcase care careers.

Supporting Employers

As a peak body organisation, Community Industry Group knows the challenges of recruiting and retaining right-fit candidates in aged, home, and disability care roles are familiar to employers across the industry.

That is why we have established the Care Careers Project - an initiative to equip employers and turn recruitment and retention challenges into success stories. For more information see <https://www.careforcehub.com/resources-for-employers>.

Employer Job Pledge

The Jobs Pledge allows employers to demonstrate their commitment to providing job seekers with real job opportunities in the Illawarra and South Coast of NSW.

By taking part in the Jobs Pledge program employers will extend the reach of your attraction and recruitment campaigns - every job that is pledged will be promoted via CareForce Hub marketing and social media activities, and at job seeker events.

Pledging jobs allows you to be part of a sector-wide strategy aiming to attract more job seekers to the jobs and careers our sector has to offer.

The pledge process is easy. Fill out the form on the CareForce Hub website and Tanya Southworth, Policy and Project Officer - Care Careers will be in contact to support your involvement and market your job vacancies.
